

# SOLAR STATION SERIES

OxBlue solar power stations are designed specifically for use with the OxBlue construction cameras, enabling quick and easy setup. As an added bonus, they typically qualify for a 30% federal tax credit for renewable energy products.

*Actual specifications vary depending on type of camera and job site location.*

Light and easy-to-handle panels & batteries

Constant power to the construction camera

30% federal renewable-energy tax credit

Mobile power all over the jobsite

Simple activation and installation

Digital system display for troubleshooting

**OxBlue**
